

$$2 - 1 = \boxed{}$$

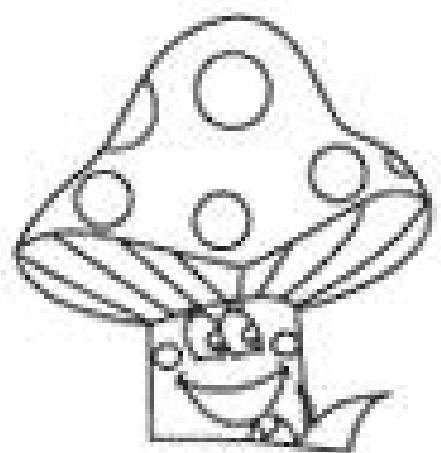

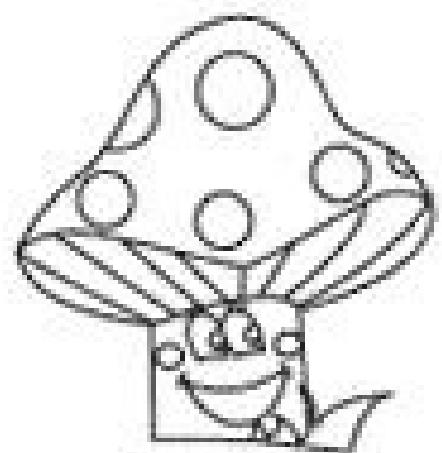

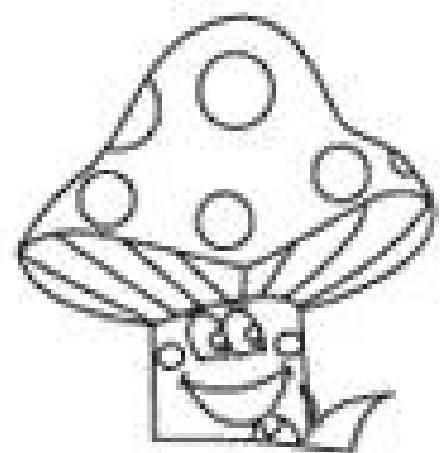

$$5 - 4 = \boxed{}$$

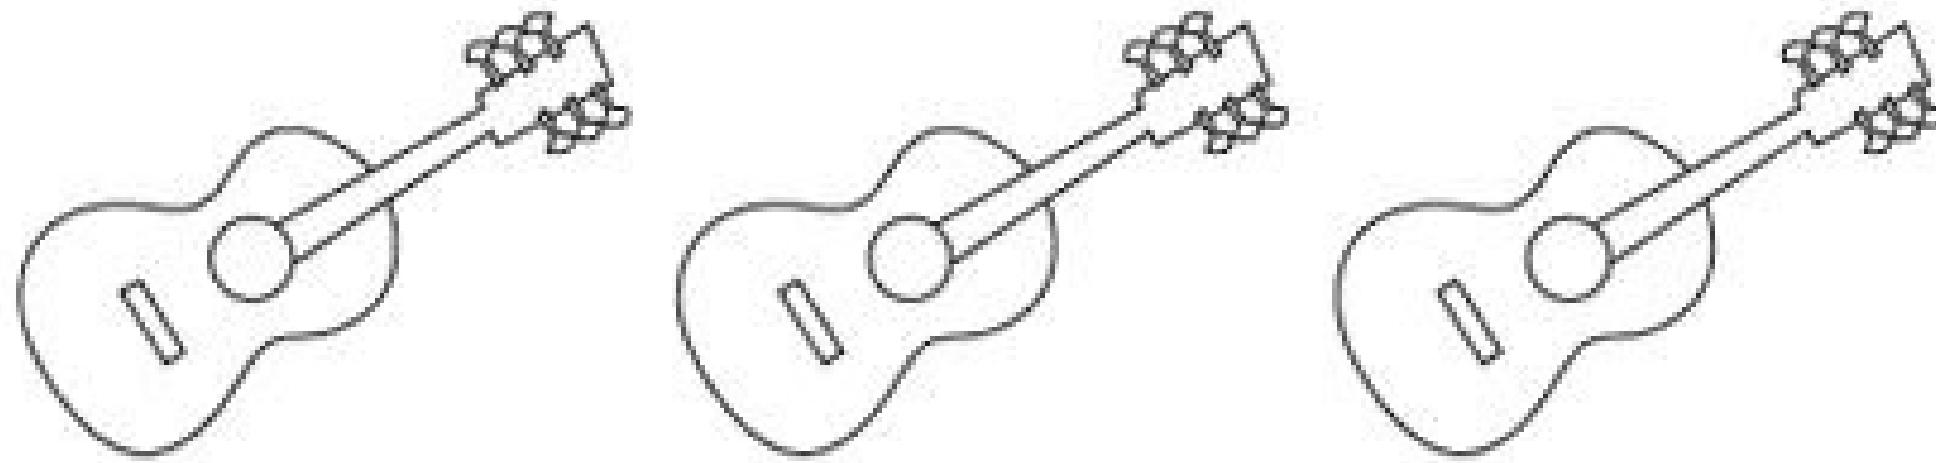

$$3 - 2 = \boxed{}$$

$$4 - 3 = \boxed{}$$

$$3 - 2 = \boxed{}$$

$$3 - 2 = \boxed{}$$

$$2 - 1 = \underline{\quad} 1$$

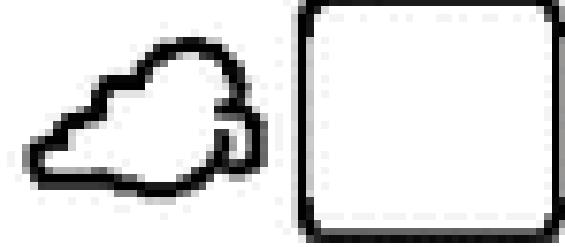

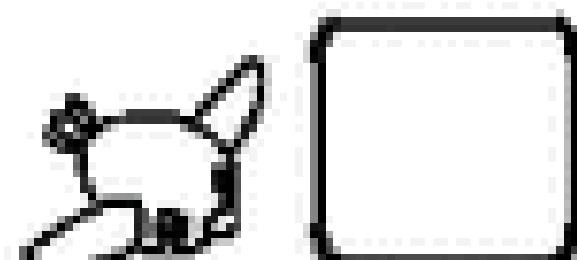

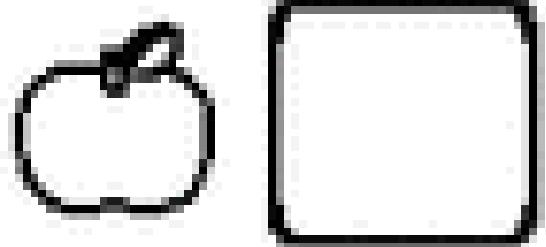

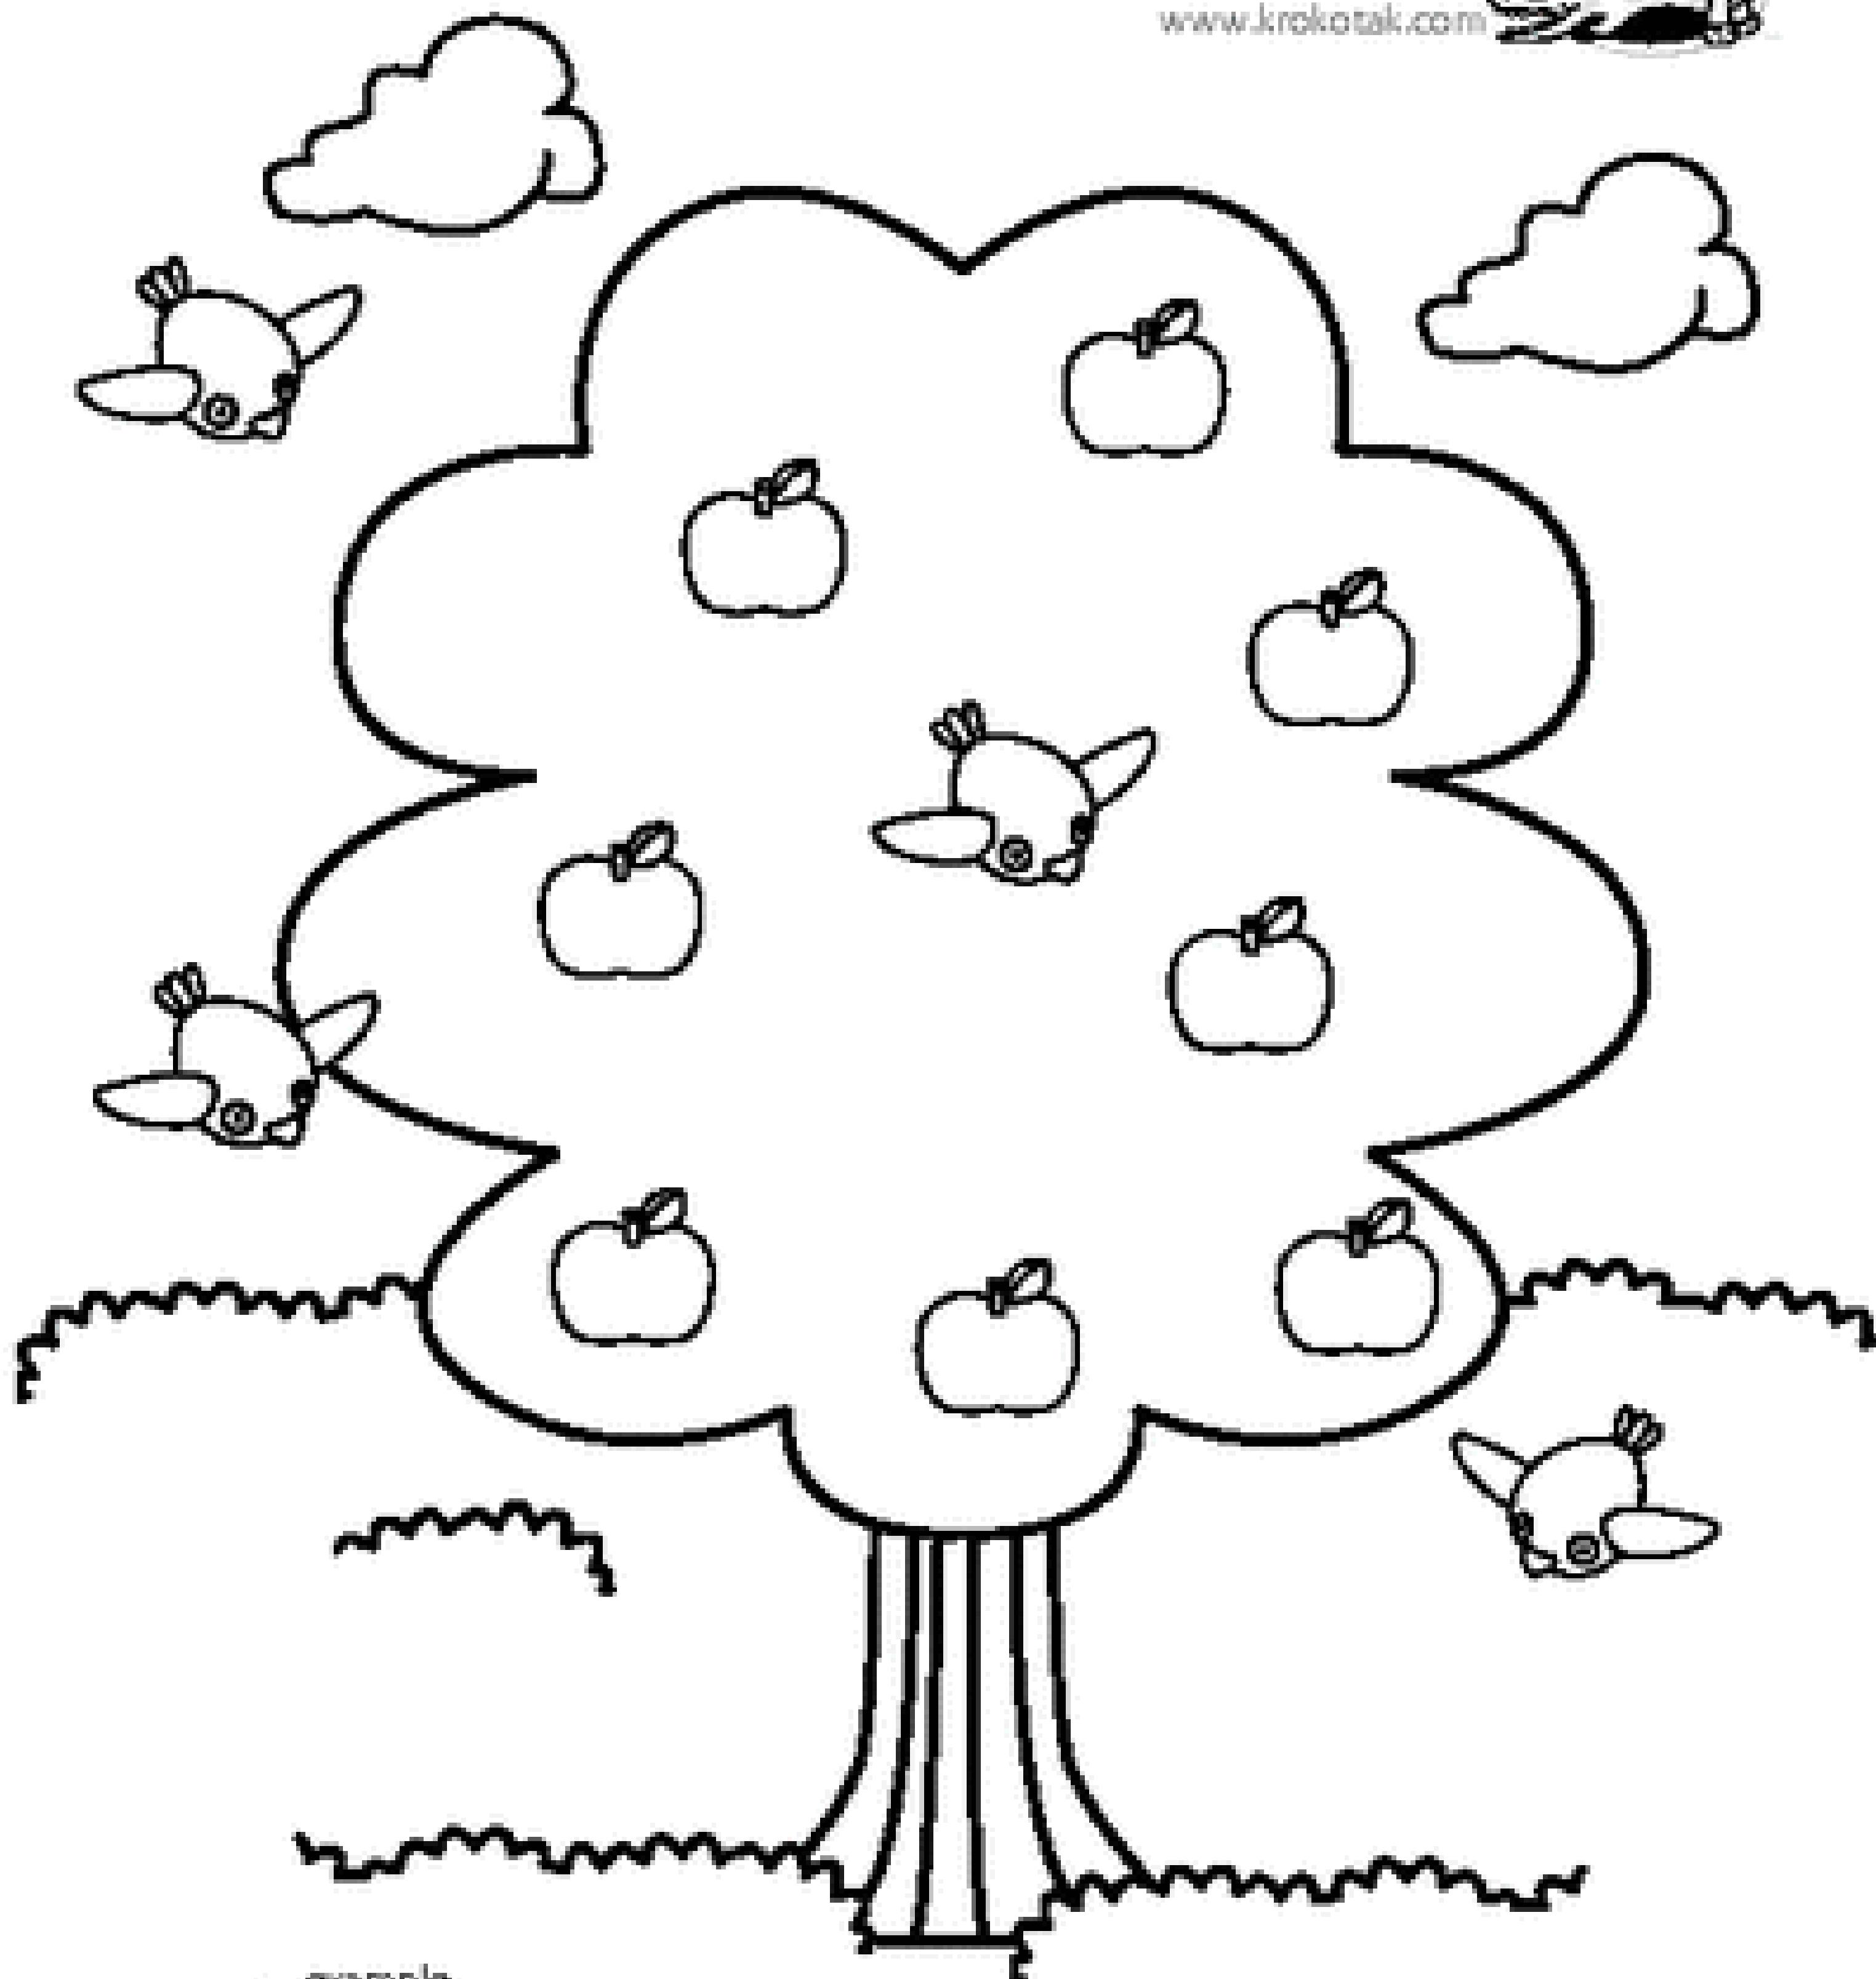

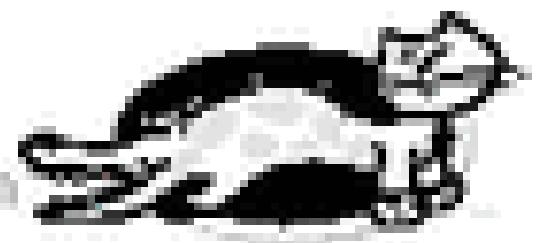

A subtraction equation where the first number is 2, represented by two small cartoon animals (one brown, one grey) on the left. The second number is 1, represented by a single small cartoon animal on the right. The result is 1, represented by a single small cartoon animal on the far right.

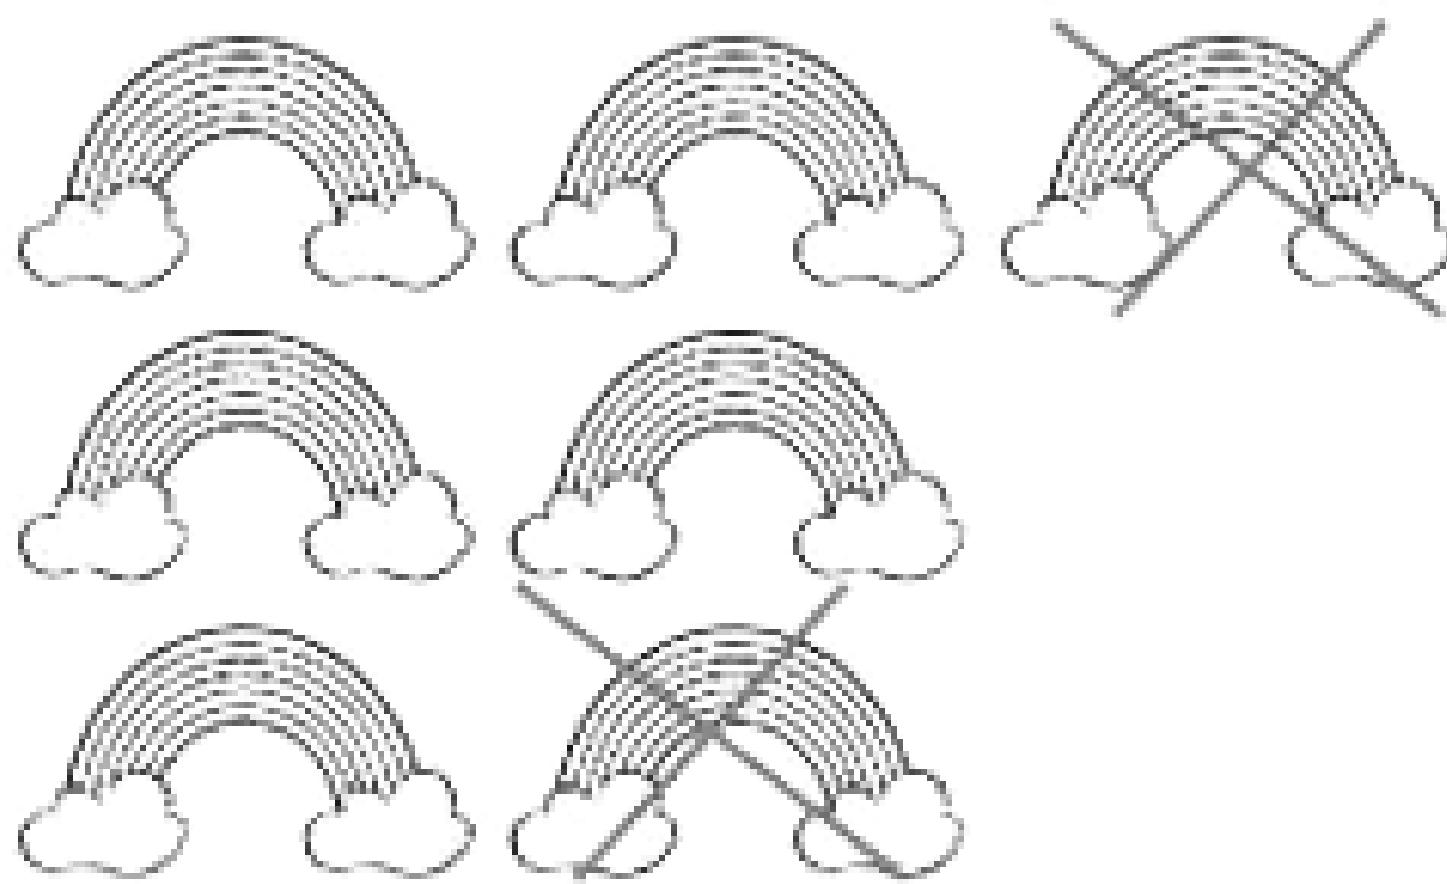

$$3 - 2 = \underline{\quad} 1$$

A subtraction equation where the first number is 3, represented by three small cartoon animals (two brown, one grey) on the left. The second number is 2, represented by two small cartoon animals (one brown, one grey) on the right. The result is 1, represented by a single small cartoon animal on the far right.

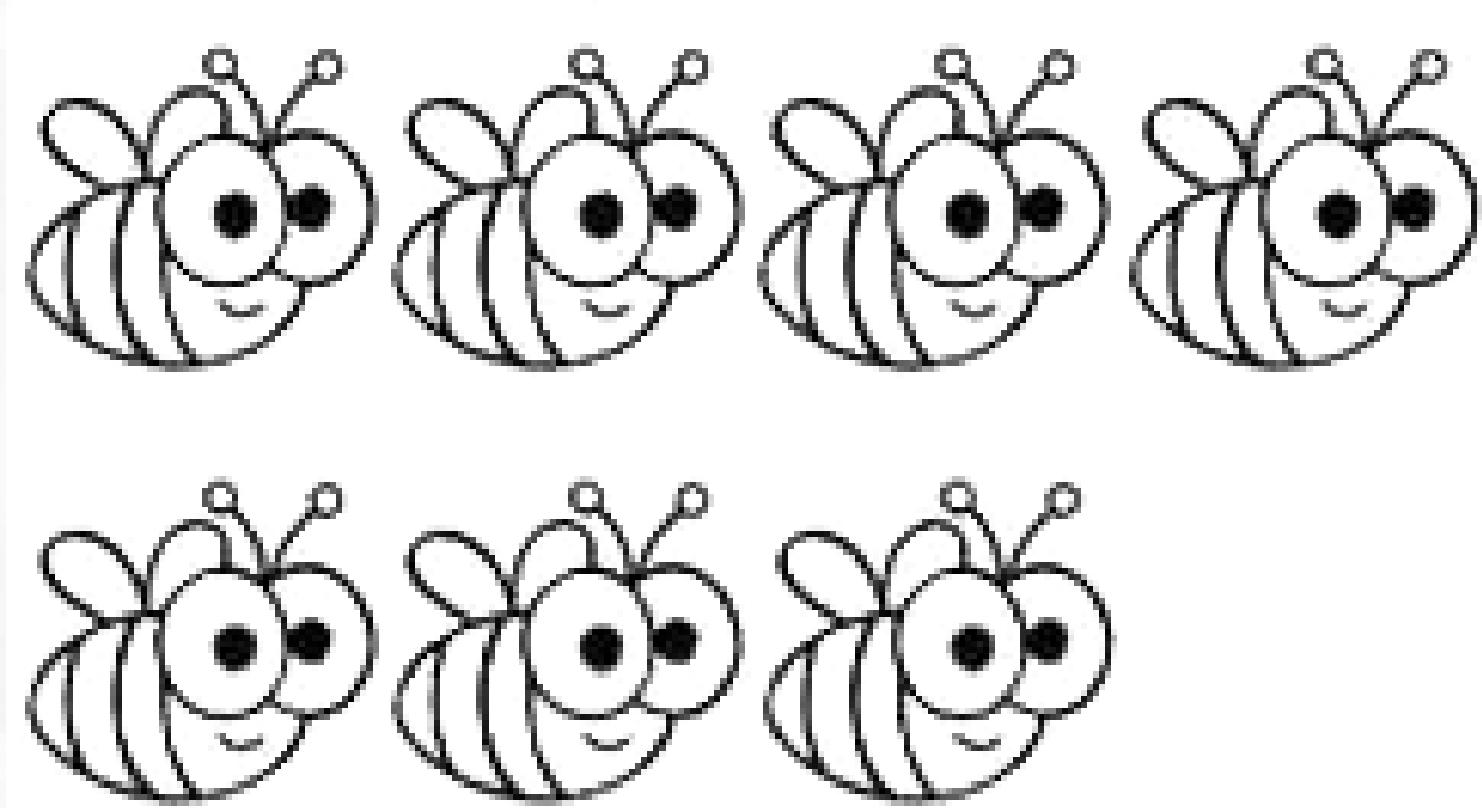

$$3 - 1 = \underline{\quad} 2$$

A subtraction equation where the first number is 3, represented by three small cartoon animals (two brown, one grey) on the left. The second number is 1, represented by a single small cartoon animal on the right. The result is 2, represented by two small cartoon animals (one brown, one grey) on the far right.

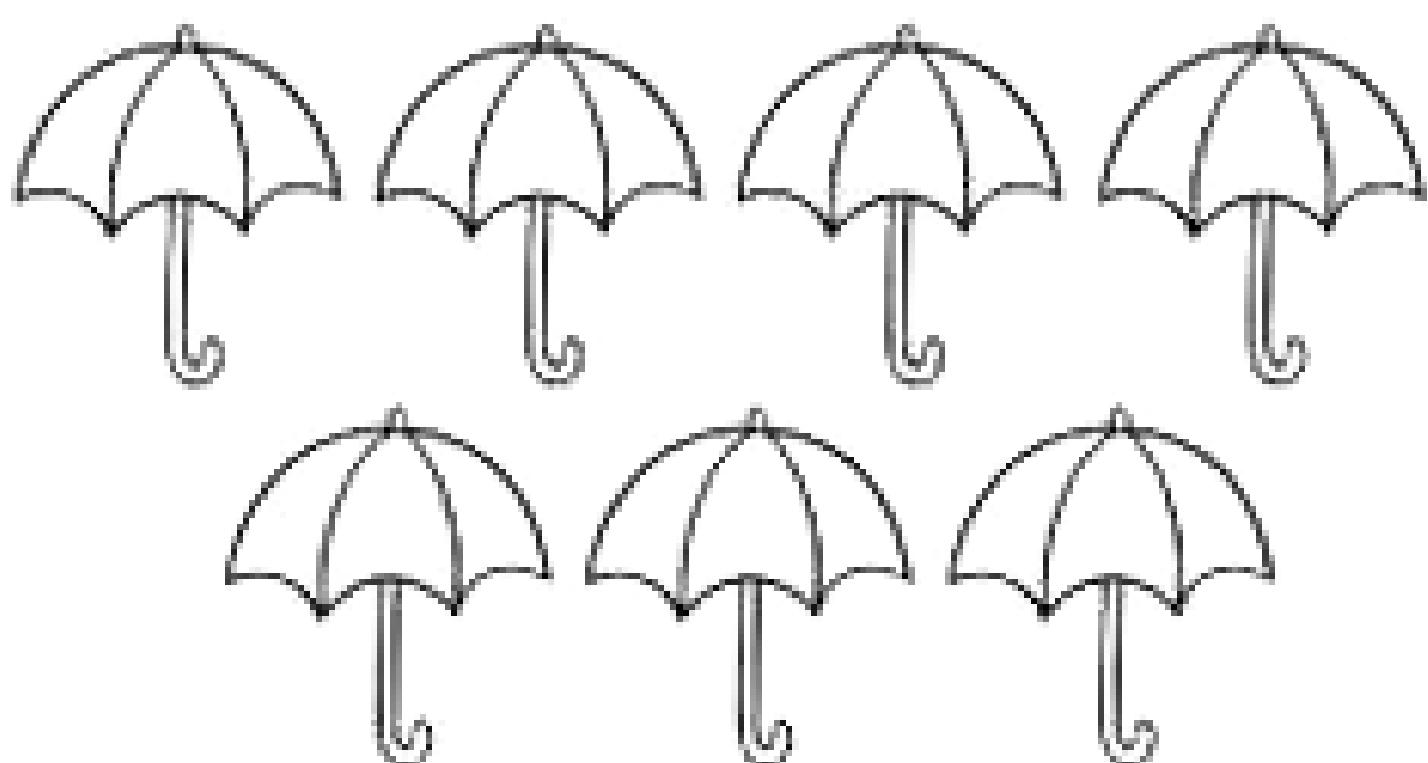

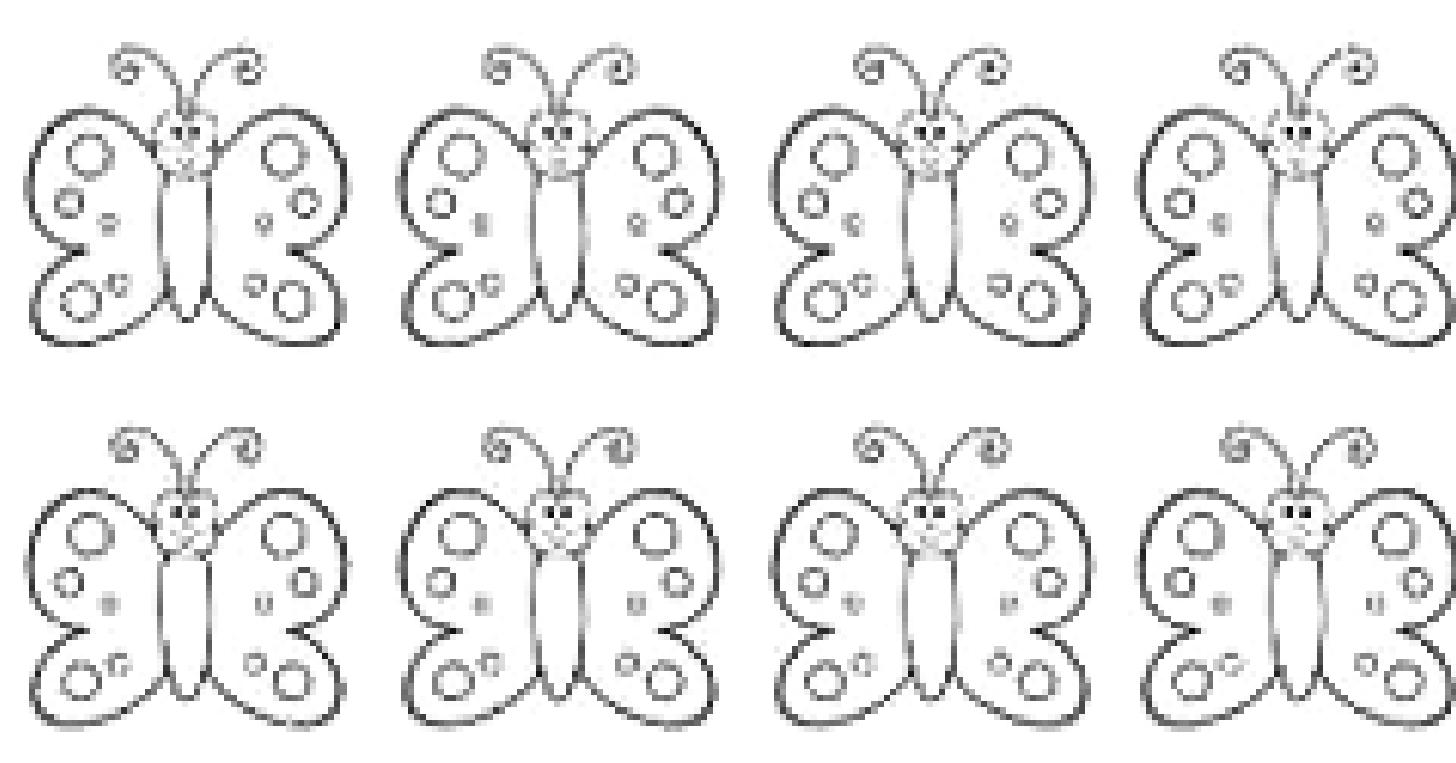

$$7 - 2 = \boxed{5}$$

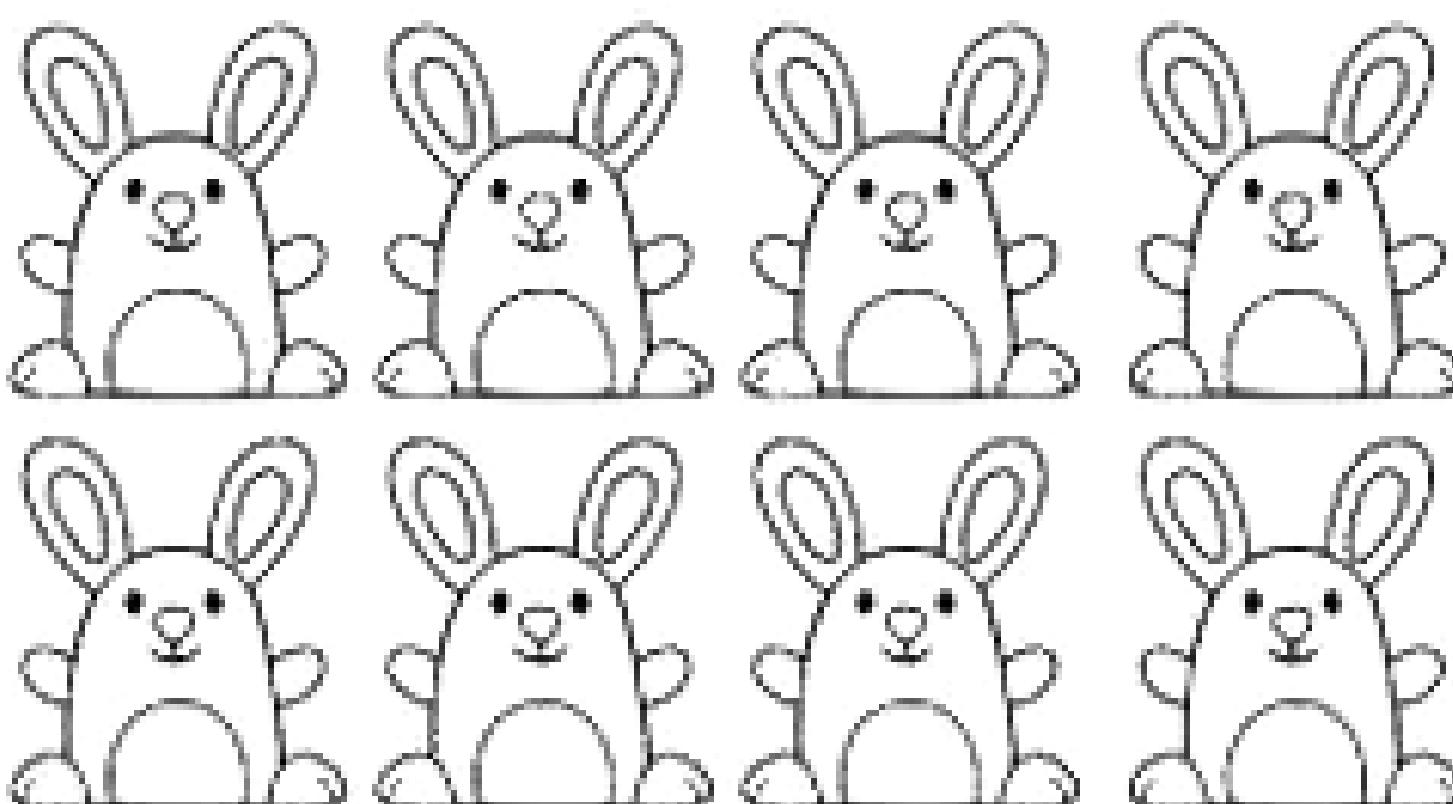

$$7 - 3 = \boxed{}$$

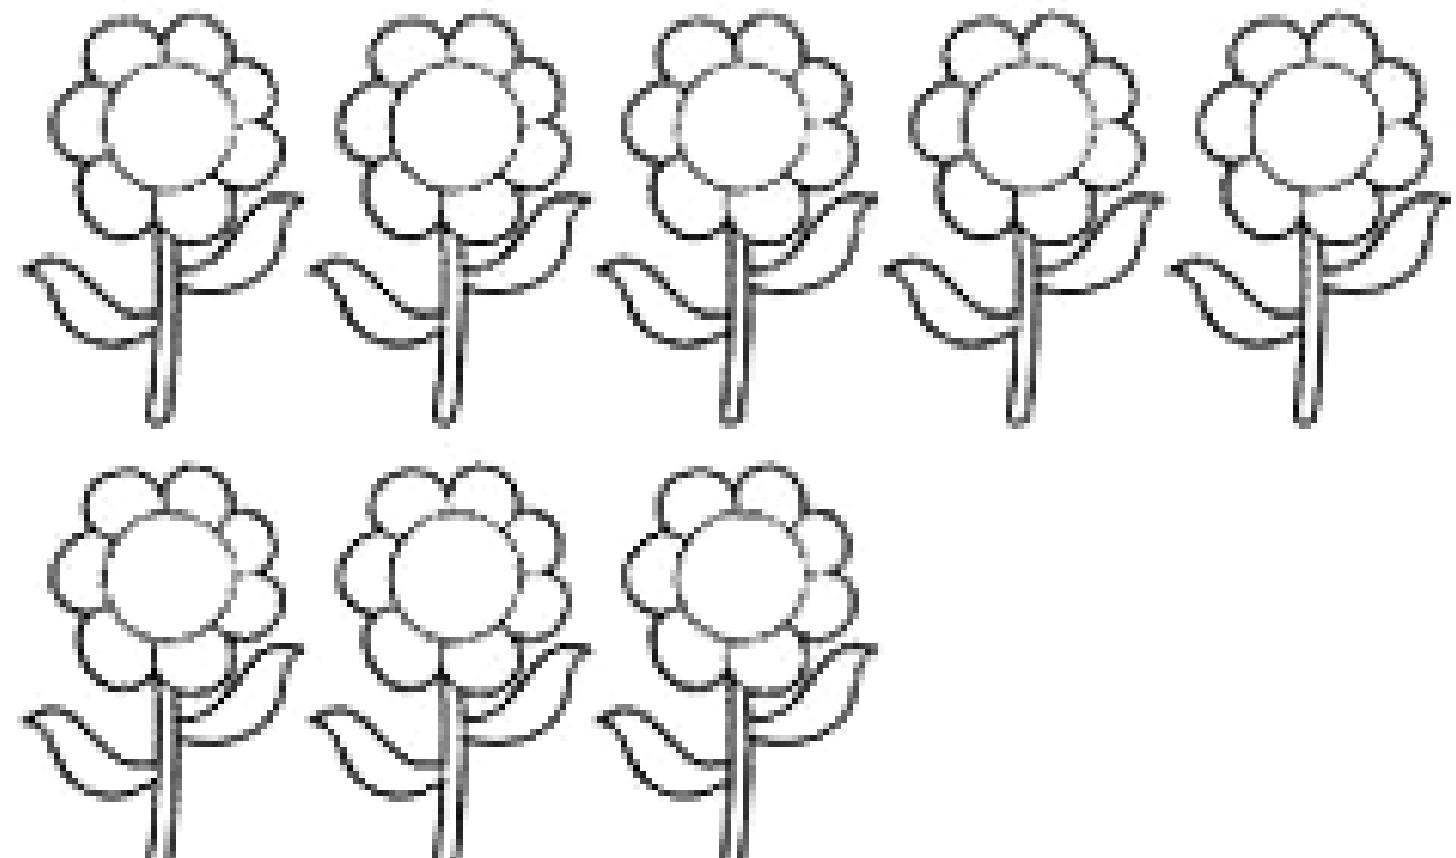

$$7 - 1 = \boxed{}$$

$$8 - 6 = \boxed{}$$

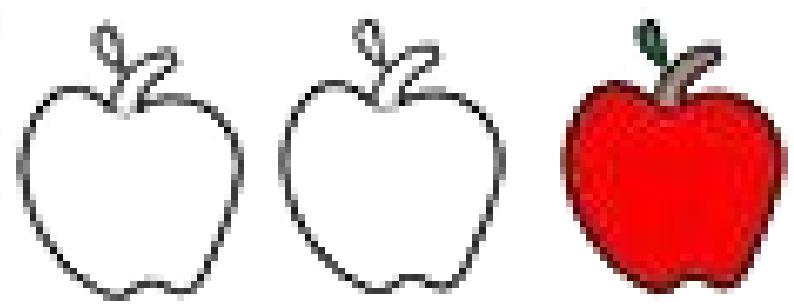

$$8 - 2 = \boxed{}$$

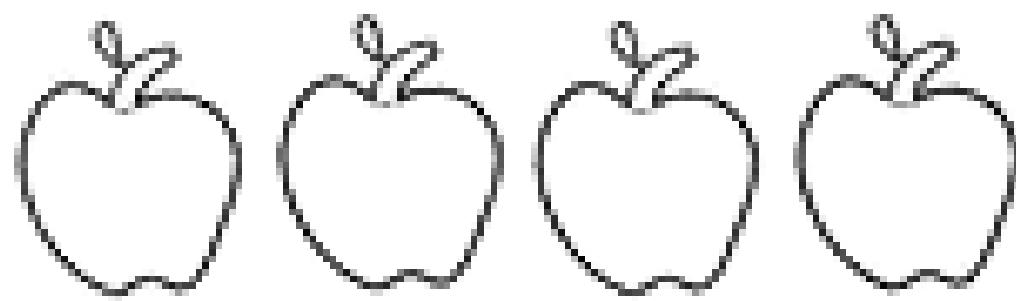

$$8 - 4 = \boxed{}$$

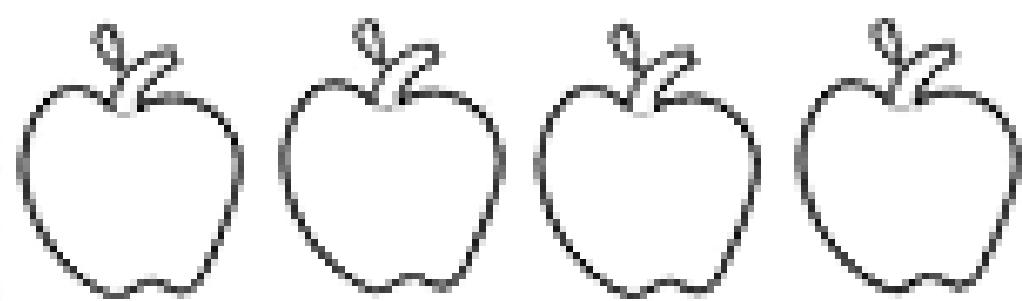

İşlemleri örnekteki gibi çözelim.

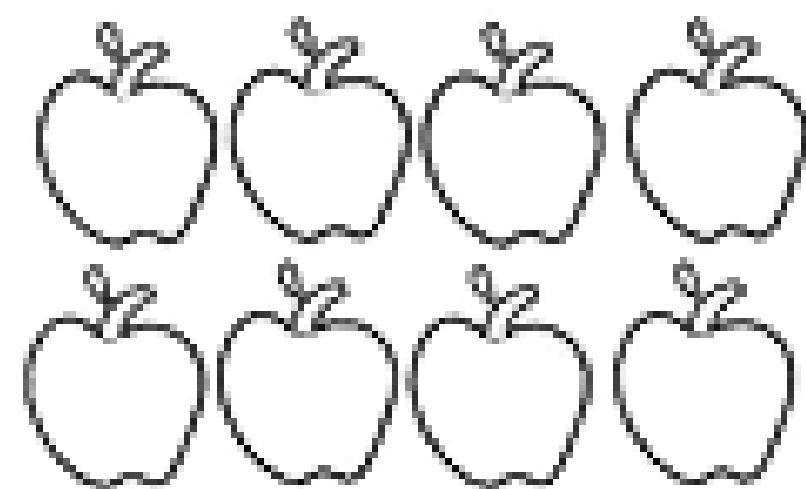

$$3 - 1 = \boxed{2}$$

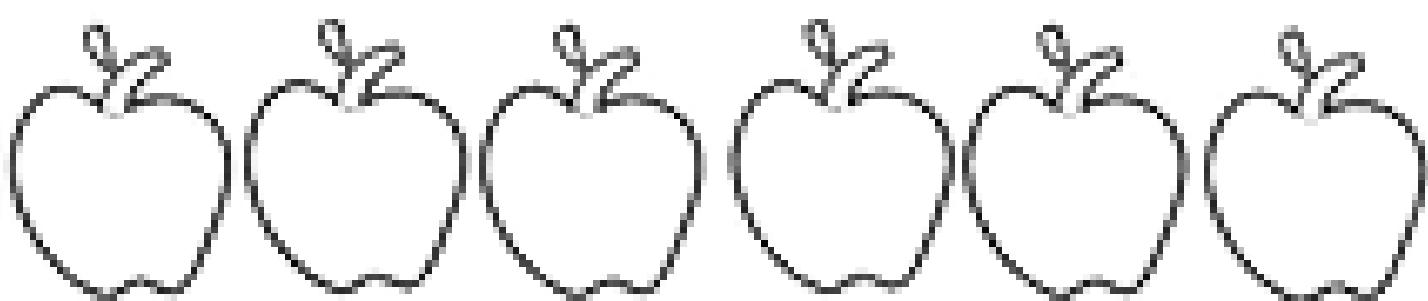

$$4 - 2 = \boxed{}$$

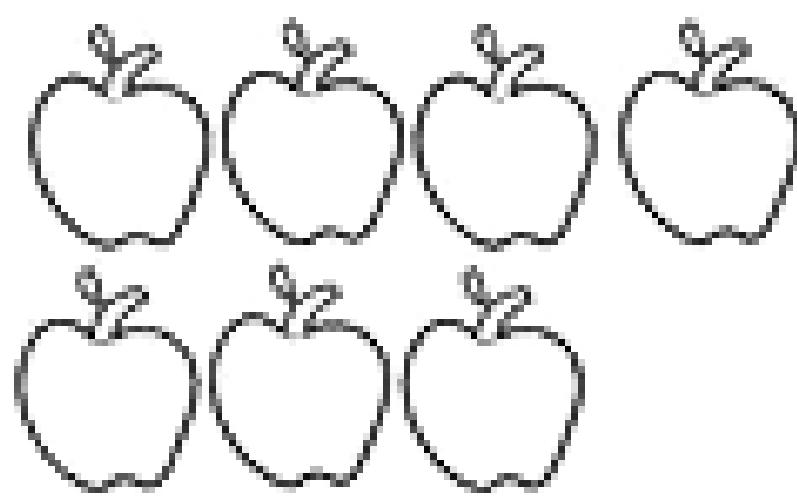

$$4 - 3 = \boxed{}$$

$$8 - 4 = \boxed{}$$

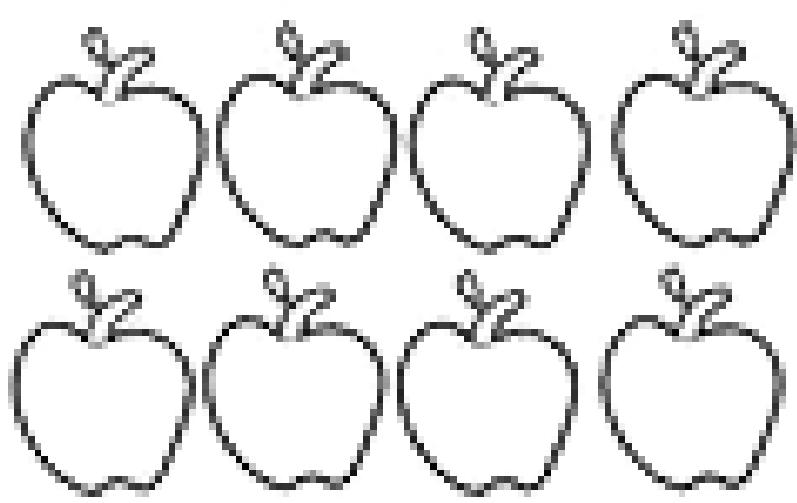

$$6 - 4 = \boxed{}$$

$$7 - 3 = \boxed{}$$

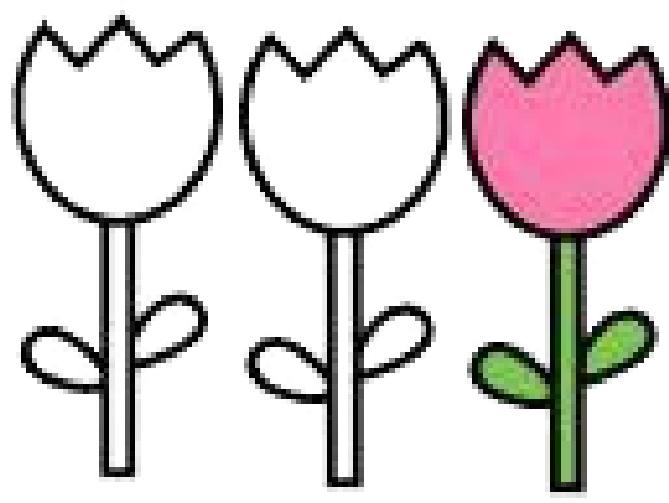

$$5 - 3 = \boxed{}$$

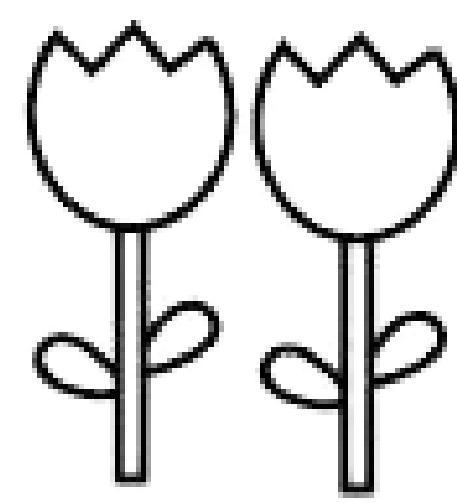

$$8 - 2 = \boxed{}$$

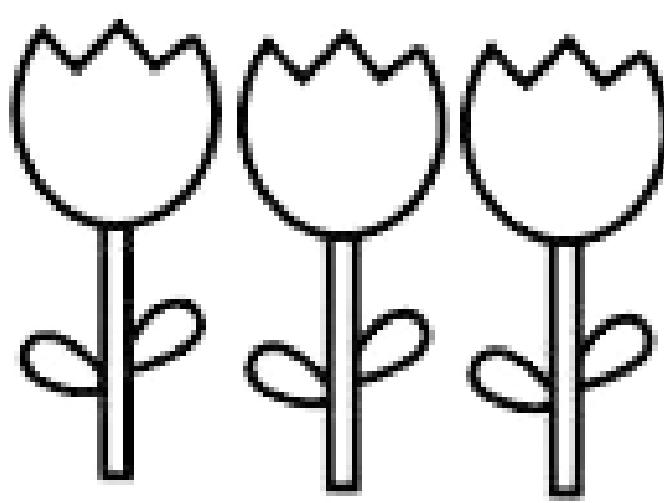

İşlemleri örnekteki gibi çözelim.

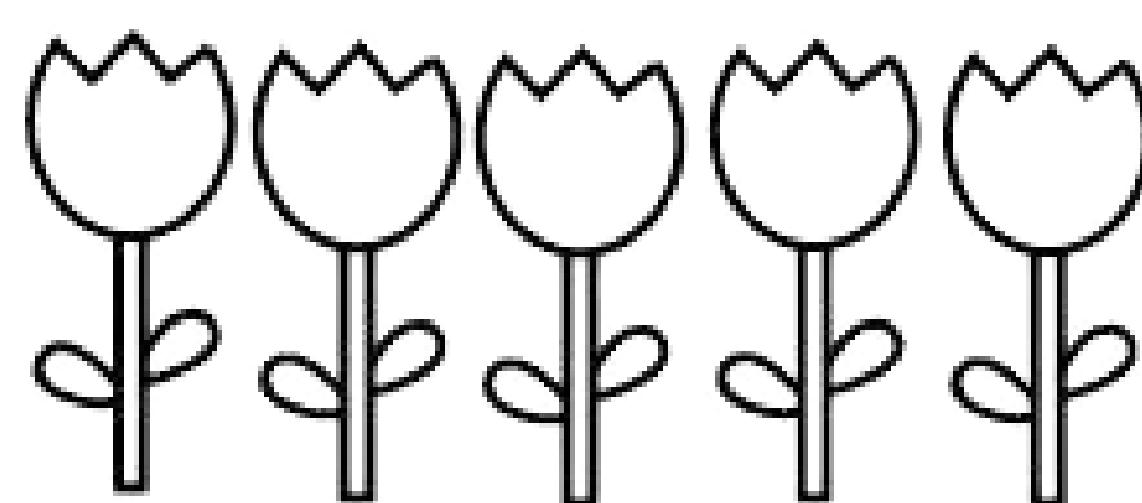

$$3 - 1 = \boxed{2}$$

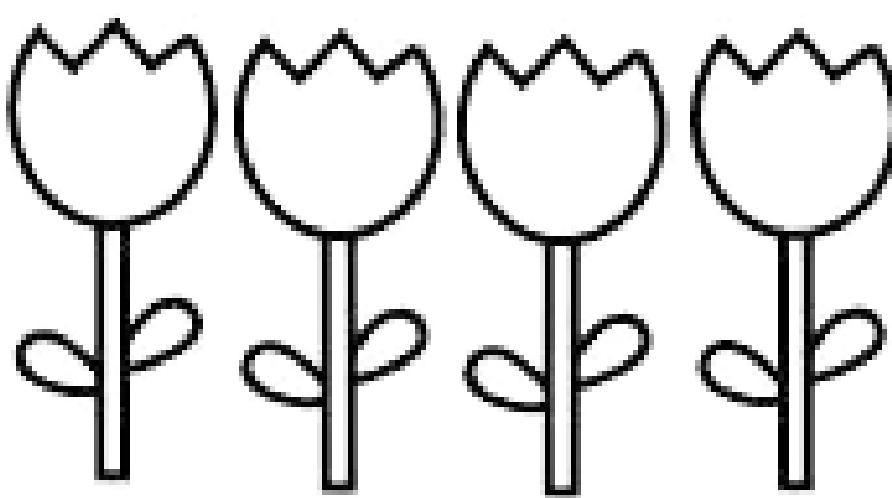

$$2 - 1 = \boxed{}$$

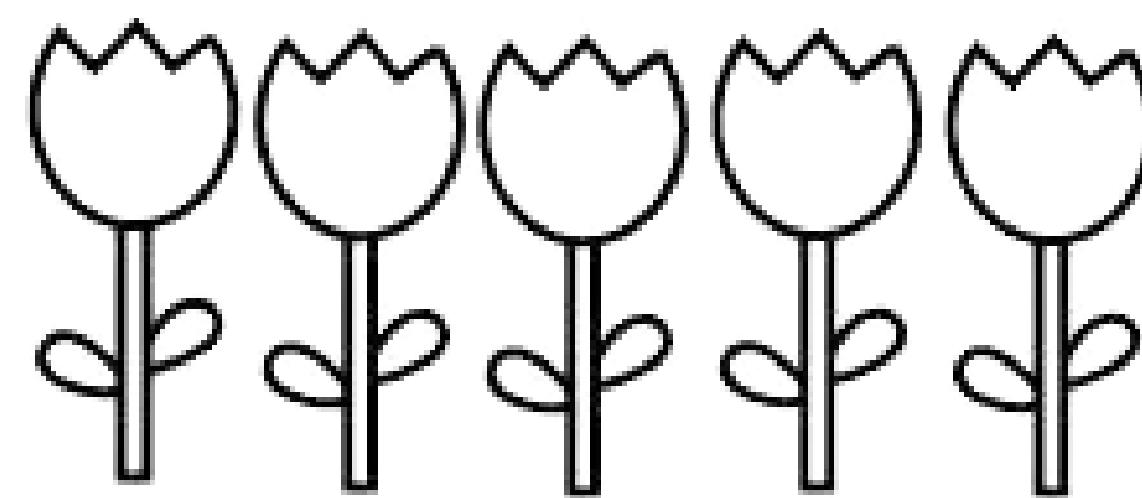

$$3 - 2 = \boxed{}$$

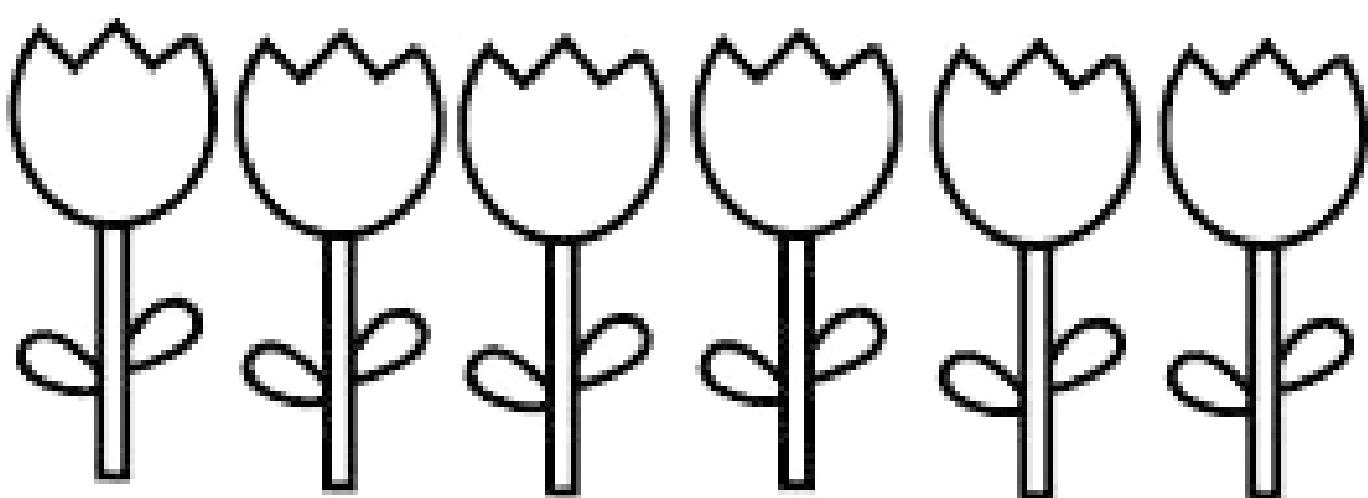

$$5 - 2 = \boxed{}$$

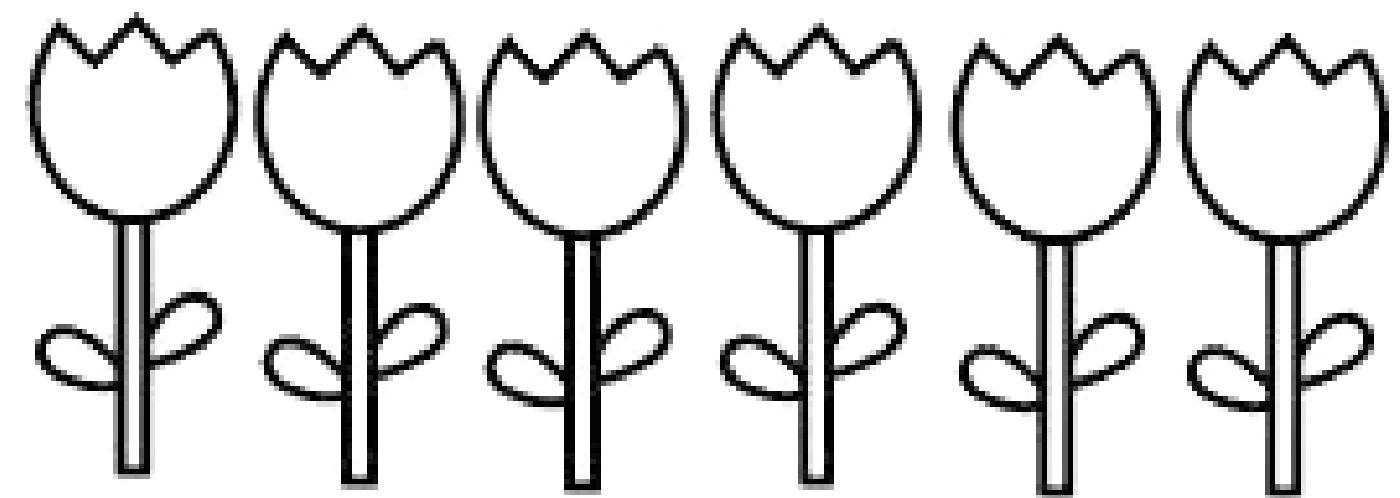

$$4 - 2 = \boxed{}$$

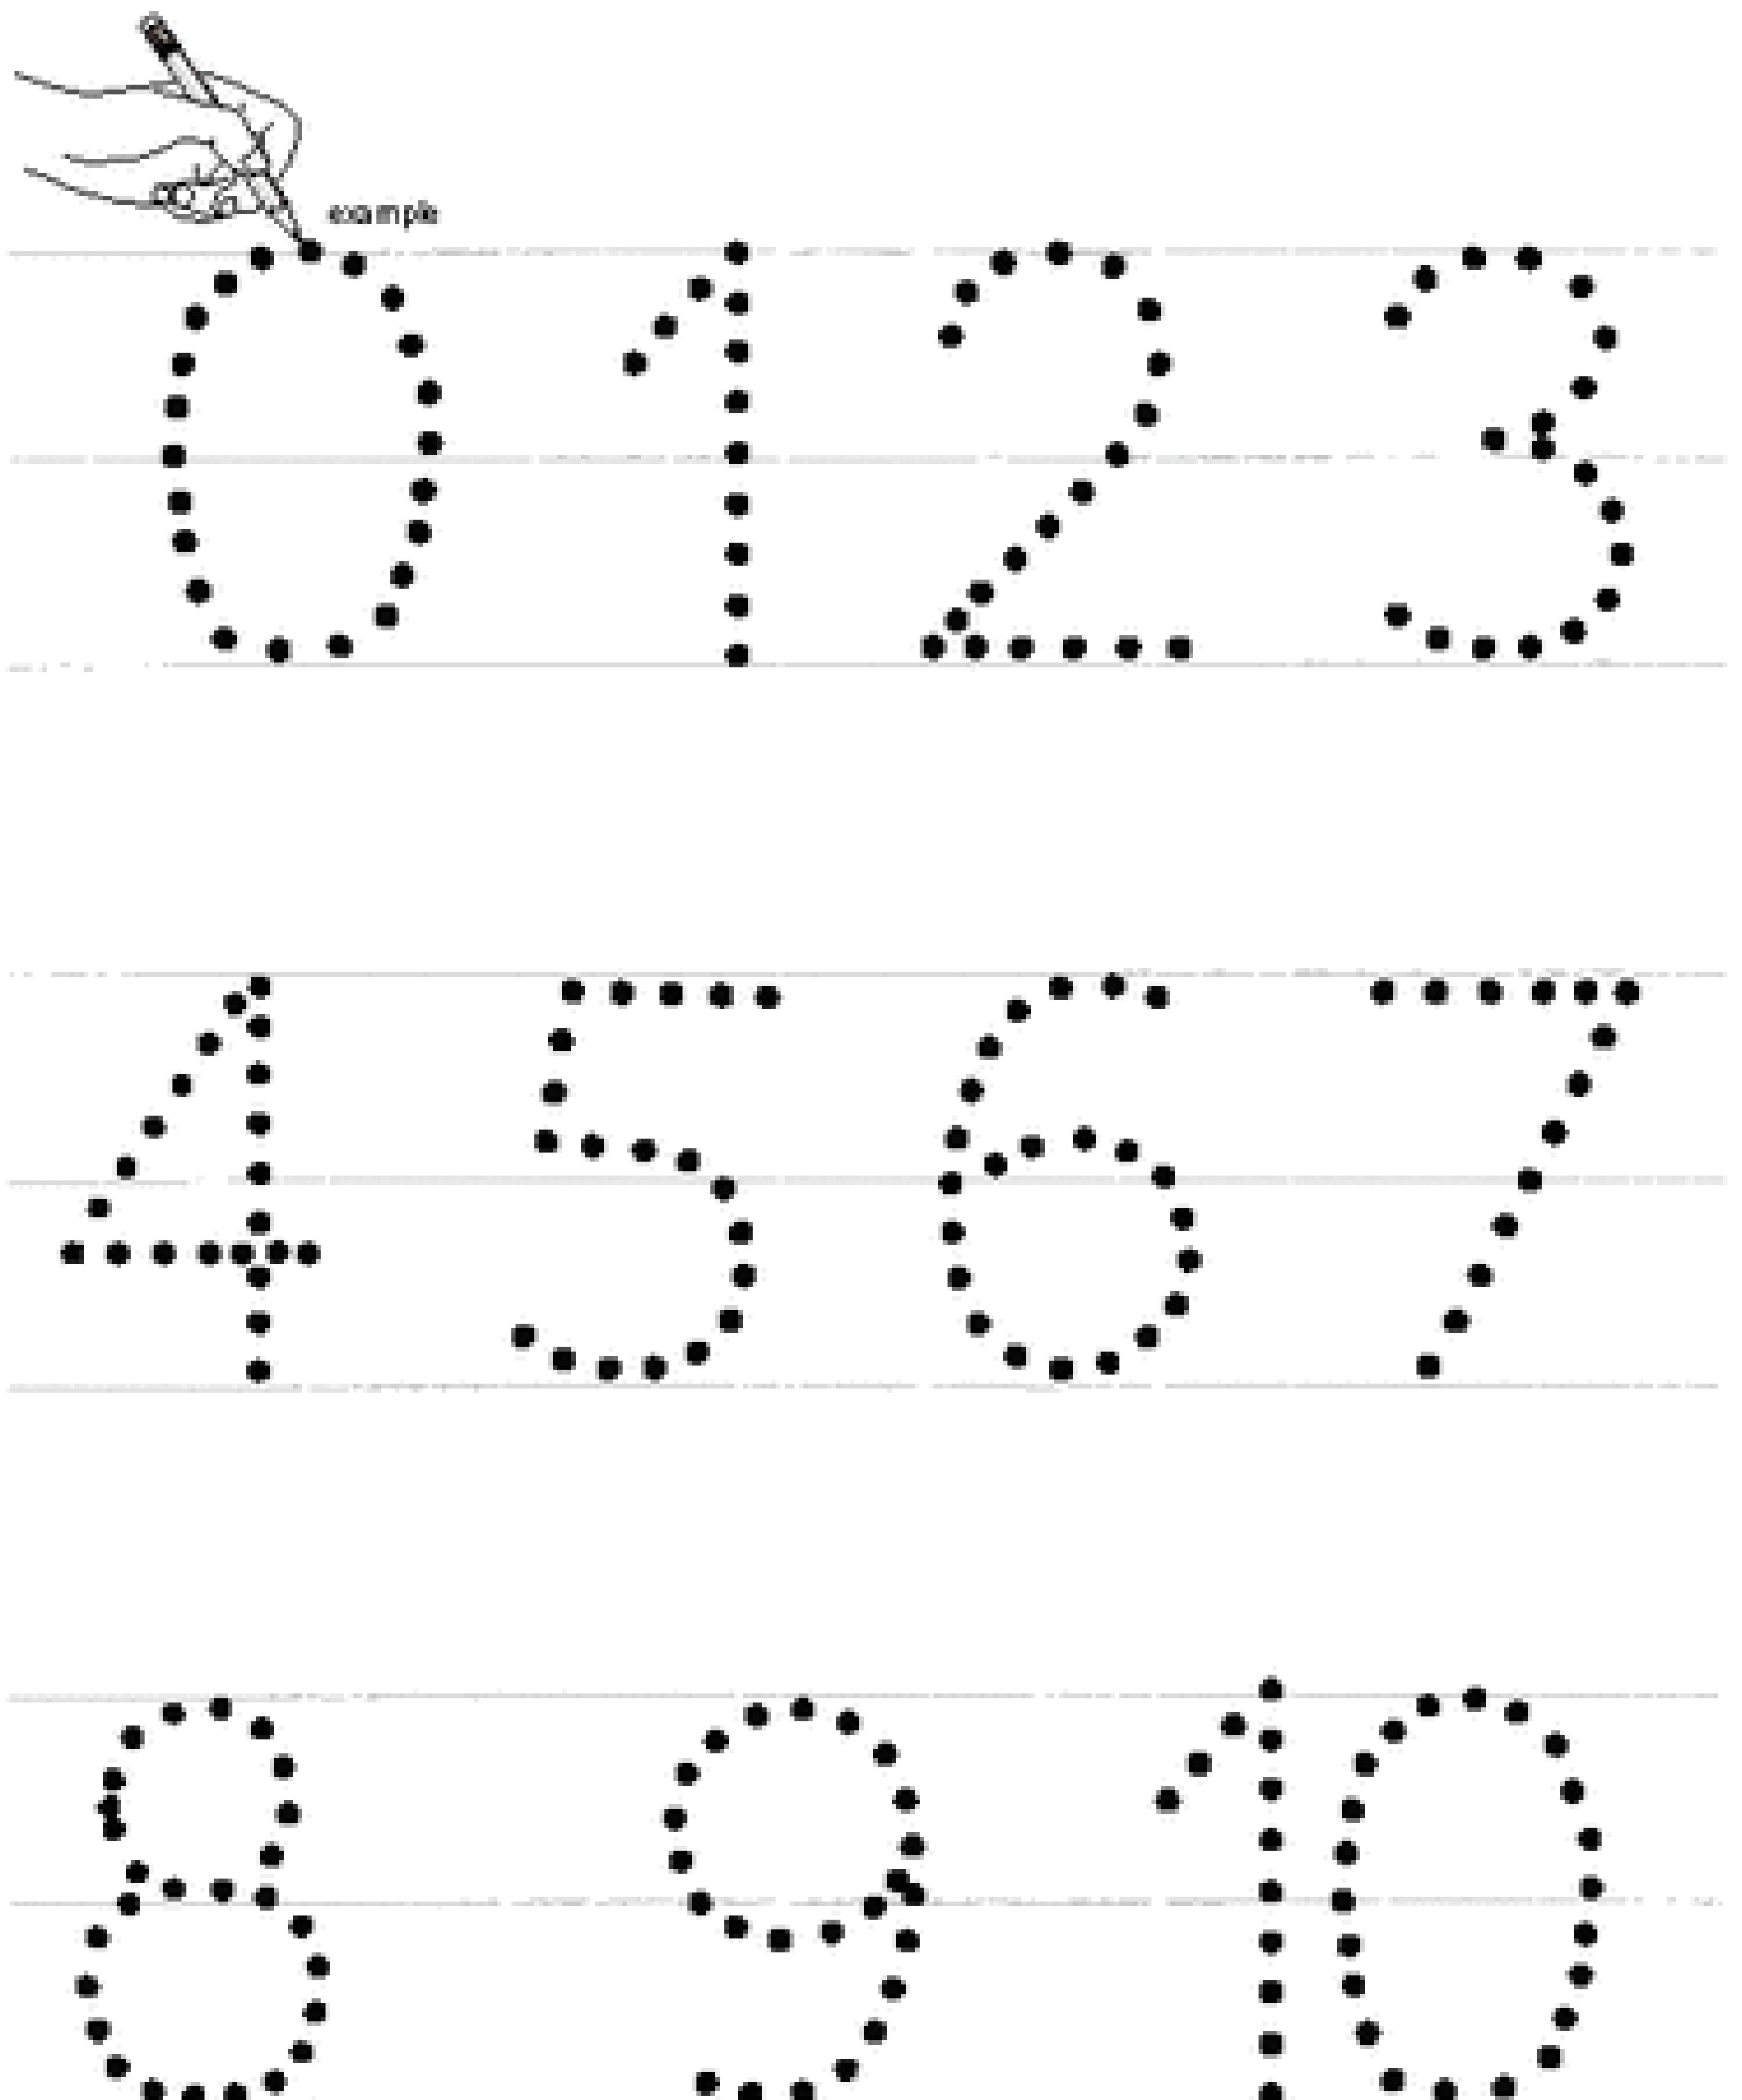

$$5 - 3 = \boxed{}$$

$$6 - 3 = \boxed{}$$

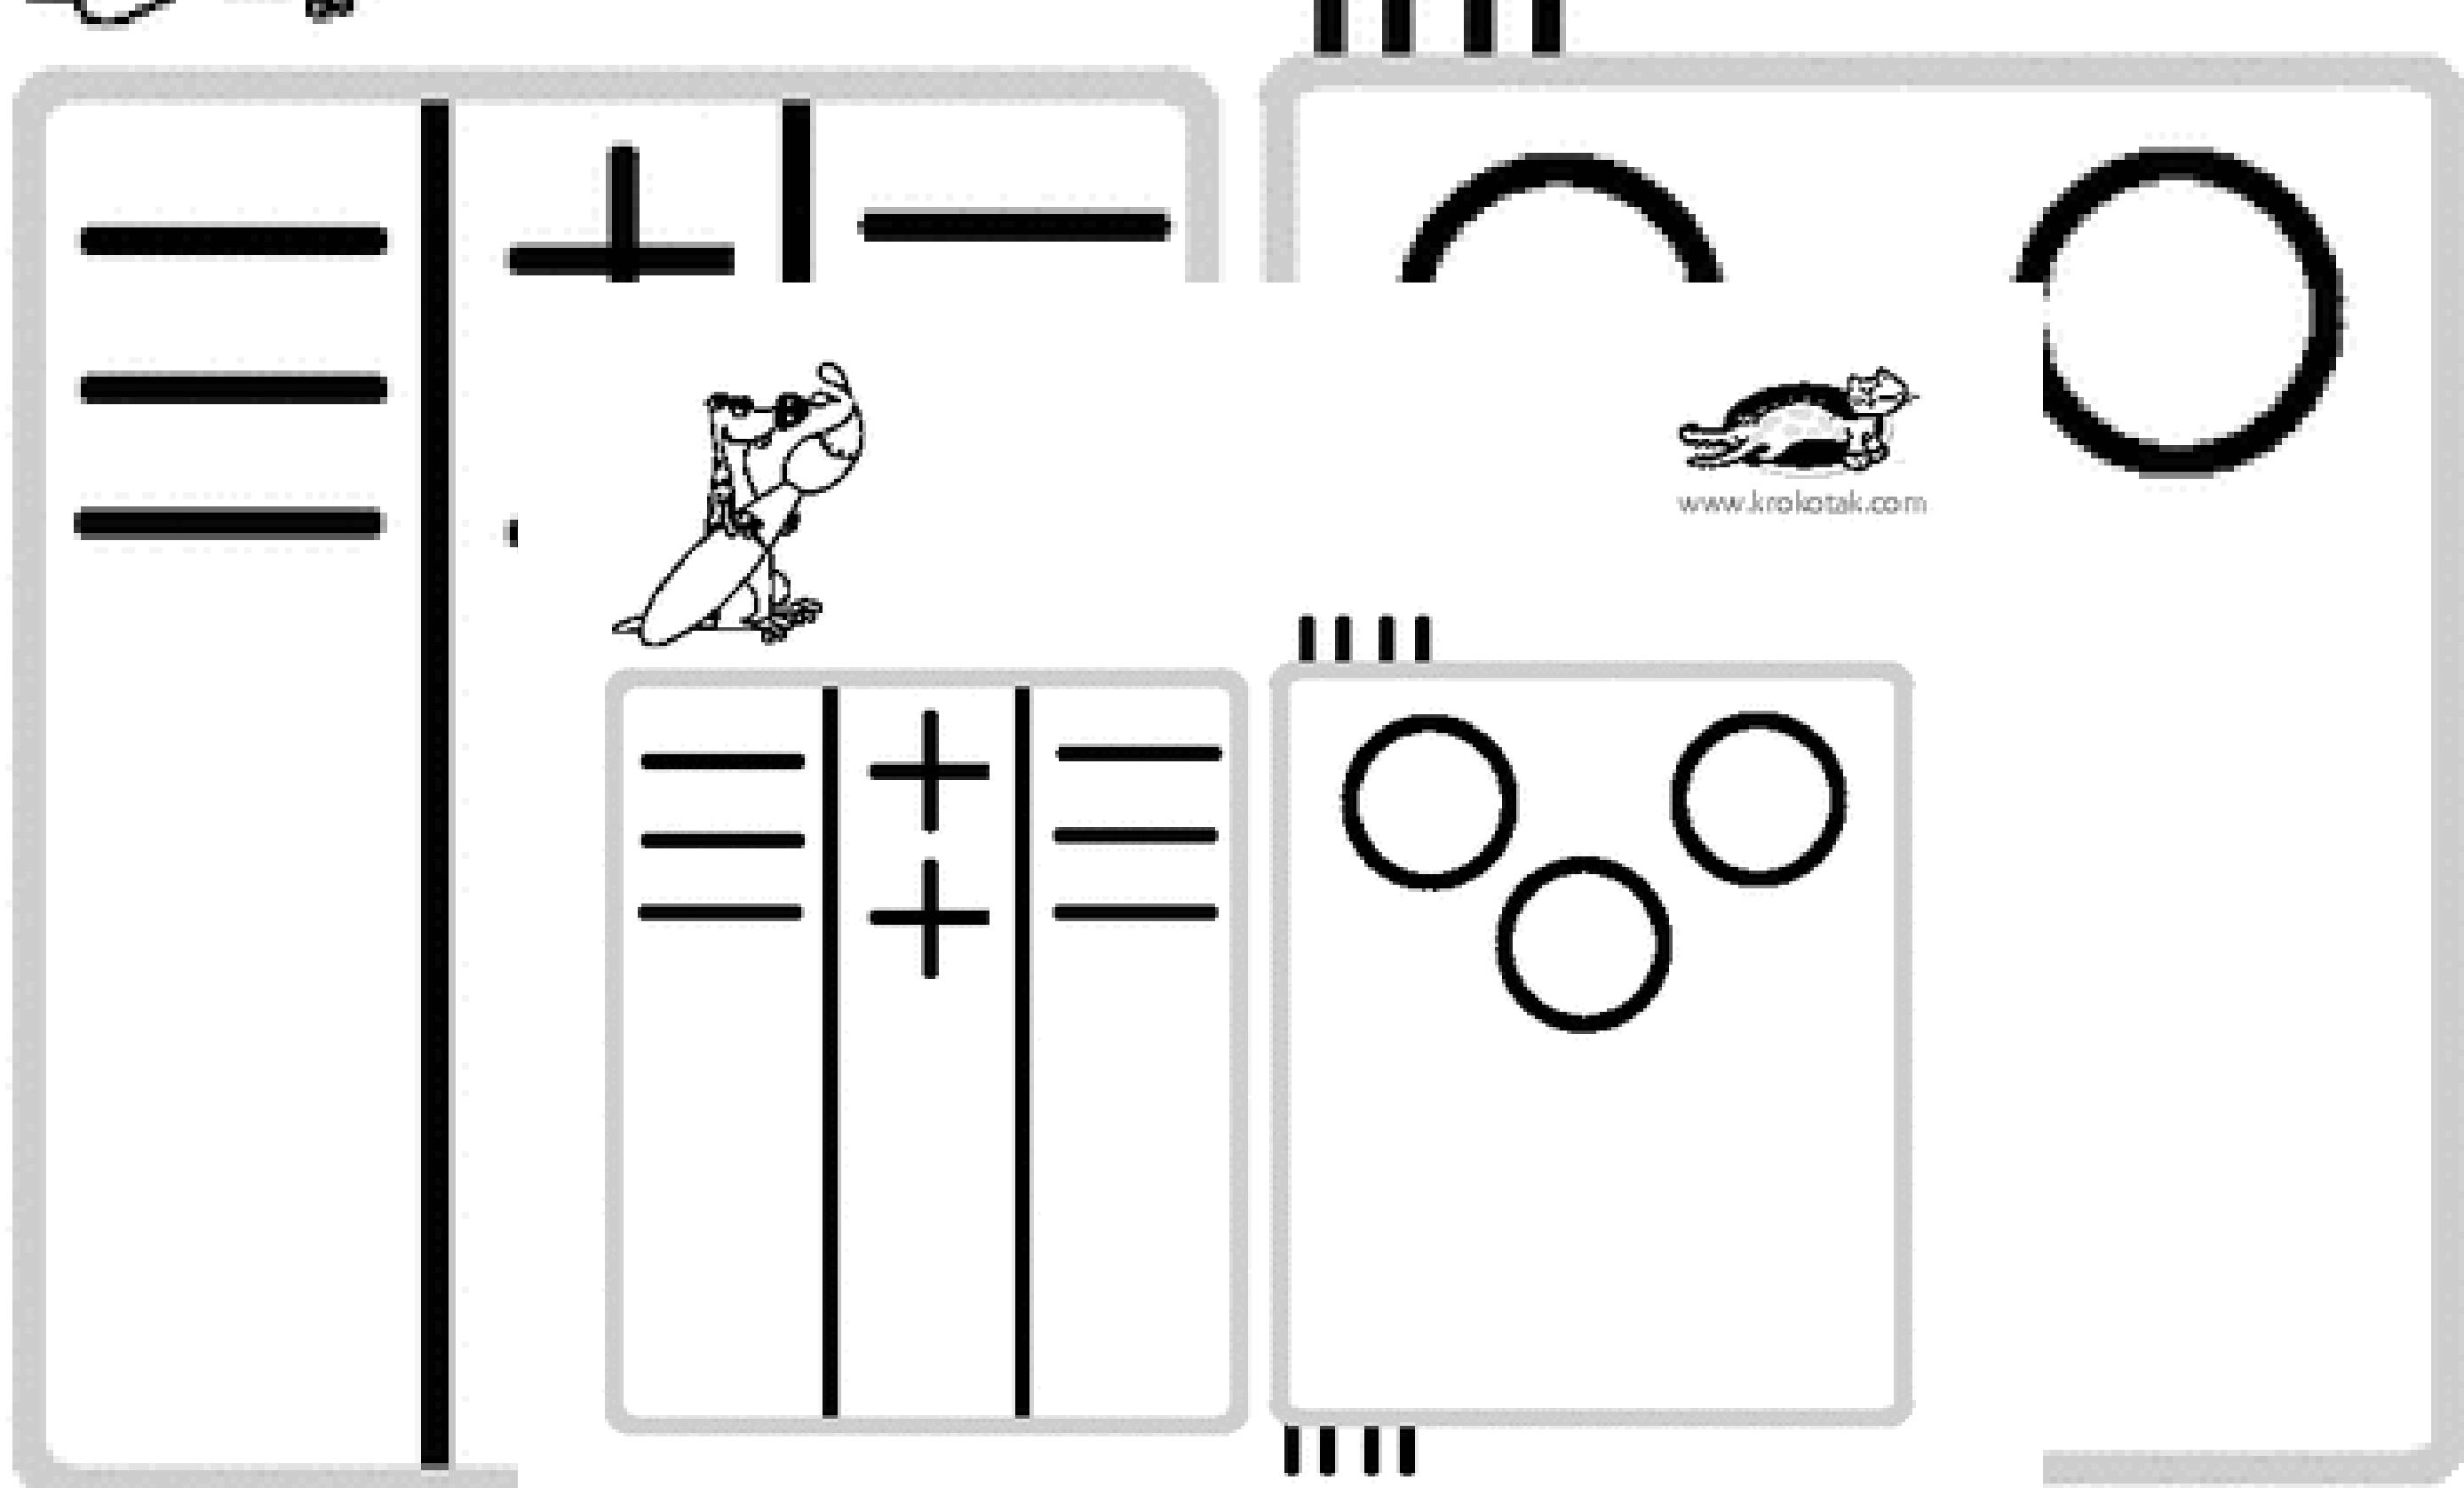

$$6 - 5 = \boxed{}$$
